

AMCOL Corporation

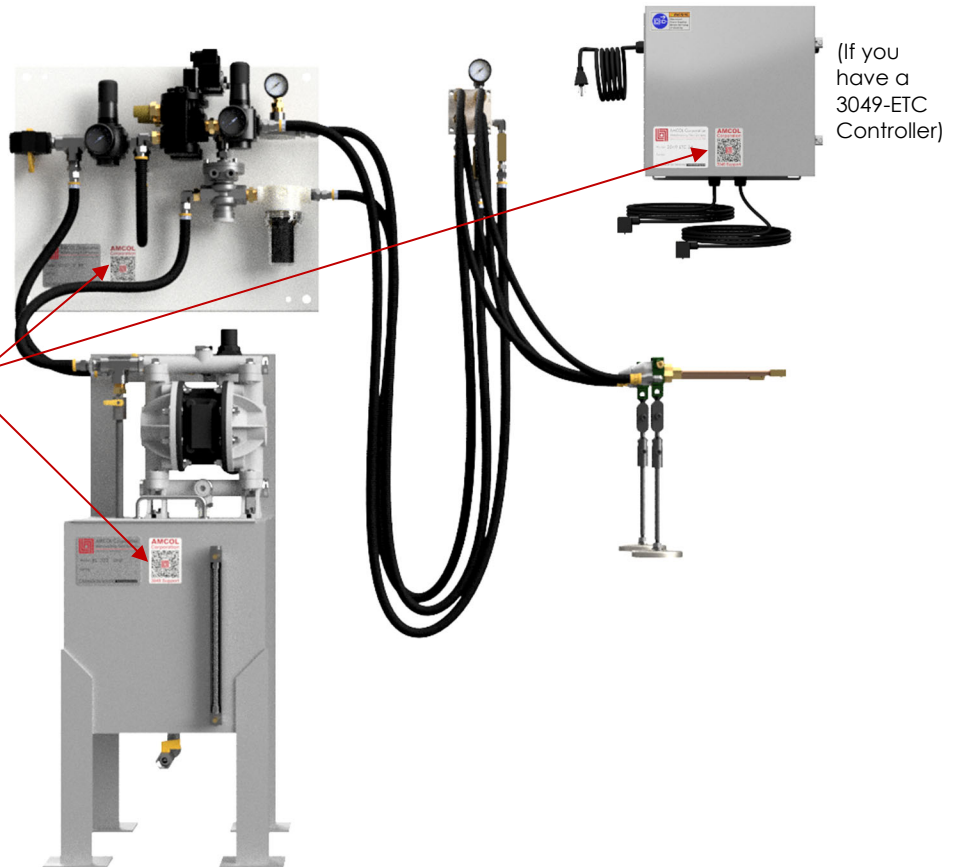

3049 Support – QR Codes

PRODUCT
BULLETIN

AMCOL - 3049 Support – QR Codes, 08/11/2023, AA-0014, Approved for Use

AMCOL now utilizes QR codes for streamlined set-up, hassle-free maintenance, and easy replacement part identification. With the integration of QR codes, accessing product-specific documents has never been more efficient. Simply scan the QR codes at designated locations on your equipment, and gain instant access to comprehensive guides, manuals, and support materials tailored to your specific system. Use the diagram below for the optimal placement of the included QR labels.

Please attach the labels at these locations to easily access the related documents for your system.

Please make sure to clean and dry the area so the label will adhere properly.

There is **no need to download any special apps**, simply use the camera on your smartphone and click the link.

For more information about AMCOL fluids and equipment or to request more labels, please contact your AMCOL Sales Representative at 248-414-5700 or visit us on the web at www.amcolcorp.com.
